EDUCATION

BRABU UNIVERSITY

Apr 2019 - May 2023

Bachelor of Computer Application

Major in Computer Science; Minors in Mathematics and Psychology

Relevant Coursework: Data Analysis, Software Engineering, Computer Applications

LAXMI RAJDEO SCHOOL

Mar 2017 – Apr 2019

Studied Intermediate in Physics, Chemistry, and Mathematics

KENDRIYA VIDYALAYA

Mar 2006 - Apr 2016

Studied Primary and Secondary Education

WORK EXPERIENCE

PLUS DISTRIBUTION PRIVATE LIMITED

Gurugram, Haryana

SQL Developer

Feb 2024

- Engineered complex SQL queries using joins, subqueries, stored procedures, CTEs (Common Table Expressions), and window functions to generate detailed reports, optimize data transactions, and enhance system performance. Achieved a 25% reduction in query execution time while handling 3M+ transaction records.
- Identified and fixed a large volume of critical database errors, ensuring data integrity and accuracy across multiple systems. Streamlined debugging processes and implemented error-handling mechanisms, significantly improving database reliability and performance.

PANFLASH TECNOLOGIES

Greater Noida, Uttar Pradesh

Back End Developer (Intern)

Aug 2023 - Jan 2024

- Developed and optimized RESTful APIs using FastAPI and Python for efficient CRUD operations, ensuring seamless data management and integration. Designed and managed database schemas in both SQL and MongoDB, implementing DDL, DML, and DCL for structured and scalable data storage.
- Engineered complex SQL queries, stored procedures, joins, and views to optimize data transactions and reporting. Leveraged FastAPI for high-performance backend development, enhancing system efficiency and database interactions.

PROJECTS

- FastAPI Full-Stack Application:** Built a FastAPI-powered web application with CRUD operations, JWT authentication, Pydantic models for validation, asynchronous queries for performance optimization, and SQLAlchemy for efficient database transactions.
- Personal Portfolio Website:** Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript, showcasing projects, skills, and achievements. Integrated interactive elements and animations to enhance user experience and engagement.

SKILLS

- Python:** Proficient in fundamental Python programming concepts, with hands-on experience in developing scripts, managing data structures, and implementing clean, efficient code.
- SQL:** Highly proficient in SQL, with expertise in efficient database management, complex querying, and data manipulation in relational databases. Strong foundation in DDL, DQL, DML, DCL, and TCL, ensuring comprehensive database design and control.
- MongoDB:** Experience in working with NoSQL databases, designing schemas, performing CRUD operations, and optimizing queries for scalable data storage.
- FastAPI:** Skilled in developing high-performance APIs using FastAPI, with hands-on experience in CRUD operations, JWT authentication, Pydantic models for validation, asynchronous queries for performance optimization, and SQLAlchemy for efficient database transactions.
- JavaScript:** Skilled in creating dynamic, interactive web applications, integrating front-end functionalities, and implementing robust logic for seamless user experiences.
- Power BI:** Specialized in crafting insightful, interactive data visualizations and dashboards that drive decision-making and deliver actionable insights through clear, compelling presentations.
- Django:** Experienced in building web applications using Django, implementing authentication, managing models, views, and templates, and integrating databases for seamless backend operations.

ADDITIONAL

Languages: Fluent in Hindi and English

Certifications: Python Fundamentals (Great Learning), SQL for Data Analytics (Udemy)
